

# SL OXIDE SC

## Instructions

## Caustic Accelerator

STEP  
**1**

- Mix ratio 1 ounce of SL OXIDE SC per 2 gallons of water @ 120-160°.
- **WATER TEMP IS KEY... HOT at 160°+ will optimize.**

STEP  
**2**

- Add the SL OXIDE SC to the running Caustic Cycle after 2-3 minutes of the caustic circulating by itself.

STEP  
**3**

- Run this blend of caustic/accelerator for 15-20 minutes.

STEP  
**4**

- Sanitize to Local Codes.
